

UPDATED PRESS RELEASE

II MARCH FOR DIGNITY. IN DEFENCE OF SPAIN

Saturday 26 September 2026, from 10:00 a.m., in Madrid.

From Plaza de Cibeles to the Arco del Triunfo, in the Moncloa district.

Sociedad Civil Española (SCE) and its nearly 200 affiliated organisations invite the public to attend the II March for Dignity, in defence of Spain, with Ceuta and Melilla, and calling for a general election now.

- **Called in Madrid** for Saturday 26 September 2026, from 10:00 a.m. All organised civil society bodies, professional groups, social and trade union sectors, political parties, families and citizens of any political persuasion are invited to take part, each with whatever flags and banners they wish to carry. It is a cross-cutting event.
- **Route:** Plaza de Cibeles, calle de Alcalá, Gran Vía and calle de la Princesa, arriving at the Arco del Triunfo at around 1:30 p.m., where a manifesto will be read, followed by the national anthem.

The sovereign Spanish people will be there, united and at peace, to stand firm before a coalition government that has ceased to represent and defend them, acting openly against its own nation and against European guidelines.

Sociedad Civil Española is a plural vehicle giving a voice to citizens who demand that their dignity and their say be restored by the calling of a general election, with 15 November as the deadline, given how untenable the current situation is.

This march is being held for the second time because the situation in Spain keeps getting worse:

- In defence of the unity and territorial integrity of Spain and of Europe's borders, and against the invasion of the Spanish cities of Ceuta and Melilla. Matters that have the support of the European Parliament and the European Commission.
- In defence of urgent, clean elections with a “real” electoral roll.
- In defence of judges, prosecutors, the Armed Forces, the State security forces, the emergency services and public servants, and likewise of the journalists and media outlets that fulfil their duties.
- In defence of the integrity and neutrality of our institutions.
- In defence of transparency and probity in the use of public resources and in the decisions taken by the Government and the various administrations.
- In defence of the countryside, the self-employed, businesses and productive sectors, and of the quality and efficiency of essential services such as security, healthcare and education, and of basic needs such as housing and employment.
- In defence of our nation, because we do not want it destroyed by enemies abroad or at home who attack our unity, our history, our freedom, private property, the rule of law, equality, solidarity and our way of life, based on the values of Western civilisation.
- In defence of respect for those who think differently, of concord among Spaniards, of the future of our young people and of Spain's international standing.

We call on the Prime Minister to call a general election NOW: reiniciaespana.org

Until a general election is held, we will follow this agenda:

- **12 October:** Barcelona for Ceuta, supporting the commemoration of Spain's National Day and of Hispanic Heritage Day, together with other cities.
- **Visit to Ceuta** by a delegation from Sociedad Civil Española (date to be confirmed).
- **6 December:** support for Constitution Day celebrations in several cities.
- **Support** for the actions of organised civil society in defence of Ceuta and Melilla.

Signed: Organising committee of the II March for Dignity. 26 September 2026, Madrid.
